SERGEJ ANDREEVSKI

Sergej Andreevski was born in Skopje, Macedonia in 1960, and graduated from the Faculty of Fine Arts in Skopje in 1985, followed by postgraduate study abroad with scholarships from the Galleria di Arte Moderna in Rome, Italy, and from the city of Nuremberg, Germany. Sergej has participated in more than 200 group exhibitions in his own country, and in Europe, the USA, Japan, and China. He is a winner of many national awards, and his paintings and drawings are owned by state institutions and museums all over the world as well as by private collectors.

In 2003 Sergej with his wife Irena established an artist residency program in Sergej's ancestral Macedonian village of Sloeshtica where he spent his childhood. This program, Art Point Gumno, has strong ties with both the Asolare Fine Arts Foundation and the No Boundaries Art Colony in Wilmington NC, with Sergej as a board member of both these US organizations.

For our reception, there will be an exhibition at Asolare of his recent works.
